FOR IMMEDIATE RELEASE

II-VI Optical Systems to Debut Most Recent Capabilities Integration at the 2015 SPIE-DSS Show

MURRIETA, CA—April 21, 2015— II-VI Optical Systems (BUSINESS WIRE)

[II-VI Optical Systems](#) (II-VI OS), a California-based, wholly-owned subsidiary of II-VI Incorporated (NASDAQ: IIVI) will present at the SPIE-DSS show in Baltimore Maryland, April 20-23, 2015, Booth #725.

The trade show exhibit will feature a broad array of products showcasing the expanding engineering and vertically integrated capabilities of the combined II-VI OS group, including precision photo-tools, EMI Grids, and patterning methods from our [Max Levy Autograph](#) operation based in Philadelphia, PA.

In addition, we will debut our new Owl-IR Zoom HD lens as the recent addition to a growing Owl-IR infrared lens family of products. Other products on display will include the Geostationary Lightning Mapper, the Pinhole camera lens and an array of patterned optics.

Andrew Riser, II-VI Optical Systems' General Manager, stated, "II-VI Optical Systems continues in the purposeful direction of providing our customers with broadened capabilities and easily integrated solutions to their increasingly complex challenges. We are proud of our ability to address the needs of multiple markets. The Owl-IR Zoom lens is an excellent example of the expansion of a product line to address multiple applications."

About II-VI Optical Systems:

II-VI Optical Systems is a leading producer of high precision optical assemblies, objectives, infrared optics and components, windows, domes, thin film coatings, and optical materials. As a vertically integrated provider, II-VI Optical Systems is uniquely positioned to meet the critical and complex design, engineering, and production requirements of top defense, space, medical and commercial companies. II-VI Optical

Systems is a wholly-owned subsidiary of II-VI Incorporated (NASDAQ: IIVI) and operates from facilities located in Murrieta and Tustin, CA, Port Richey, FL, and most recently Philadelphia, PA. Our facilities are registered to one or more of the QMS standards (ISO-9001/AS9100/ISO 13485). The Pennsylvania facility is ISO-17025 accredited. For additional information please visit www.opticalsystems.com.

About II-VI Incorporated:

[II-VI Incorporated](#), a global leader in engineered materials and opto-electronic components, is a vertically-integrated manufacturing company that creates and markets products for diversified markets including industrial manufacturing, optical communications, military and aerospace, high-power electronics, semiconductor laser and thermoelectronics applications. Headquartered in Saxonburg, Pennsylvania, with manufacturing, sales and distribution facilities worldwide, the Company produces numerous crystalline compounds including zinc selenide for infrared laser optics, silicon carbide for high-power electronic and microwave applications, and bismuth telluride for thermoelectric coolers.
